Subject: Bank of WalMart

NO, NO, NO to bank of Walmart! This is corporate power and greed at it's worst and simply should not be allowed. It would allow too dangerous a concentration of power of a bank were owned by the largest corporation in the world. Walmart shows such complete disregard for other business and the communities it leaves in the dust and simply does not have the kind of social conscience that fosters the kind of trust this move would require. Our forefathers must surely be spinning in their graves at the insanity of all that is going on, particularly with Walmart. Stop the insanity, say no!
